Fact-Finding Safari

Joe Sly is on safari to answer to the questions below. Give him a hand. Some of the answers you already know—if you’ve read *KIND News*. For answers to the others, you’ll need to go on a fact-finding mission online.

1. Imagine you’re an astronaut circling Earth. What 1,200-mile-long structure can you see from space? _____
2. Sea otters love to eat—they might even have teenaged boys beat! How many hours a day do otters spend eating? Find the answer at www.seaotterresearch.org. _____
3. How far can California red-legged frogs jump in a single bound? _____
4. If you won the KIND Poster Contest, how many classrooms would get your poster? _____
5. What was the real name of the original Benji? _____
6. Benji was the second animal ever inducted into the Animal Actors Hall of Fame. Who was the first? To find the answer, put on your press badge and enter the Press Room at www.benjireturns.com. Get the facts. _____
7. How many trees can be saved by recycling one ton of paper? _____
8. Who is called the fastest animal on Earth? _____
Why? _____
9. On what date will World Kindness Day be celebrated this year? The answer is on the Random Acts of Kindness Foundation’s Web site, www.actsofkindness.org.

10. Penguins stay dry and warm in frigid temperatures. How is that possible?
