

Name _____

Hive, Sweet Hive

Just as people need safe, comfortable homes, so do wild animals. Each kind of wild animal makes its own home. Homes are important to animals. They are places where animals live, rest, and raise their

babies. When you see an animal's home, look—but don't touch!

Can you match each home below with the animal who lives there? Draw a line from each picture on the left to a picture on the right.

web

hive

lodge

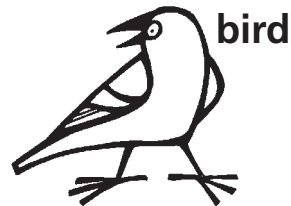

nest

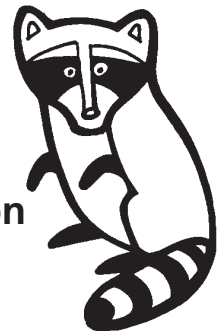

anthill

hollow

beaver

ant

bee

**The animals on this page are wild animals. Pets are not wild animals. Pets need to live with people who take care of them.
On the back, draw a pet at home.**
